As a skilled software engineer, I specialize in translating complex project requirements into efficient, scalable code, prioritizing flawless functionality and optimal user experiences. My versatility spans a diverse technology stack, delivering impactful projects with a keen focus on innovation. I thrive in collaborative, cross-functional environments, ensuring project timelines align with organizational goals.

INDUSTRIES: Education

TECHNICAL SKILLS

• JavaScript	2 years
• Git	2 years
• React	2 years
• HTML & CSS	2 years
• AWS	2 years
• MongoDB	2 years
• Redux	2 years
• Prisma	2 years
• Socket.io	2 years
• Express.js	2 years
• Next JS	1 years & 7 months
• Apollo Server	1 years & 7 months
• GraphQL	1 years & 7 months
• lagnchain	3 months
• Docker	6 months

SOFT SKILLS

Problem-solving, Teamwork, Positive-Mindset, Communication, Time management, Critical thinking

PROJECT DETAILS

• Coding Platform July-2022 - March-2023

Project Description: Engineered a coding assessment platform for 7000+ students, streamlining evaluation processes. Intelligently introduced an intuitive Admin Panel to meticulously monitor performance and rankings, resulting in a remarkable 20-hour weekly reduction in manual workload.. Automated solution assessment, leading to a 40% cost reduction and enhanced operational efficiency.
