• AWS	4 years & 8 months
• JavaScript ES6	4 years & 8 months
• TypeScript	4 years & 8 months
• Node.js	3 years
• Python	3 years
• Express.js	3 years

SOFT SKILLS

Teamwork, Communication, Collaboration, Cross functional, Problem-solving, Time management

PROJECT DETAILS

• Bus Reservation Service — January-2024 - January-2024

Project Description: Created a bus reservation service website with Fronted UI in React and backed in node.js and express driven by postgres db. The service has bus and seat records storeed in a postgres DB, and one can make a reservation for each seat. This is a side project which I completed in 5 days.
Responsibilities: Side project, full ownership. Built out the app from scratch and version controlled via GitHub
Technologies: Node.js, Express, postgres, typescript, react.js
Industry: Travel
Link: https://bus-reservation-client.onrender.com/

• Bulk webinar registration — June-2022 - August-2022

Project Description: We were running a lot of webinars and leads generated via the same were getting difficult to mangae and communicate with. Built out a bulk webinar registration system which would only store the lead for email communication until the webinar happens. Once the webinar ends, the leads are processed into users via background tasks, for downstream actions.
Responsibilities: Full ownership of the project. Planned out system design, sent out for review and then implemented the setup.
Technologies: Ruby on rails, postgres, shoryuken, redis, aws sqs
Industry: Real Estate

EMPLOYMENT HISTORY

• SDE 2 March-2021 - December-2023

• SDE 1 July-2019 - March-2021

Flyhomes

EDUCATION

• Bachelors degree in Electrical Engineering from IIT Delhi 2015 - 2019

LANGUAGES

• English - advanced
