I'm a dynamic Full Stack Developer with expertise in Golang, Node.js, MongoDB, PostgreSQL, Socket.IO, and React. With a year of experience in a startup environment, I've honed my skills in crafting innovative solutions that push boundaries and drive growth. Passionate about leveraging cutting-edge technologies, I thrive in fast-paced settings, delivering robust and efficient applications that make a meaningful impact. As a versatile developer, I'm committed to continuous learning and pushing the boundaries of what's possible in the ever-evolving world of technology.

INDUSTRIES: Transportation

TECHNICAL SKILLS

• golang	1 years
• JavaScript	1 years & 8 months
• MongoDB	1 years & 8 months
• PostgreSQL	1 years
• React	1 years & 8 months
• Socket.io	1 years
• AWS	1 years
• Node.js	1 years

SOFT SKILLS

Communication, Teamwork

PROJECT DETAILS

• Ratham transport admin web app — February-2023 - January-2024

Project Description: TA admin, for route creation for trip, employee planning.
Responsibilities: Participated in system architecture and schema design, developed APIs for employee retrieval, and documented API specifications. Additionally, implemented functionality for fetching employee locations. My role involved contributing to the design and development of key components, ensuring seamless communication and functionality within the system
Technologies: golang, mongodb
Industry: Transportation

• Ratham driver app — February-2023 - December-2023

Project Description: Driver app for employee transportation, uses location tracking, speed tracking, get api's for employee, location info
Responsibilities: Directed the design and execution of the backend architecture for the complete driver module, leading to a 20% enhancement in system efficiency and a 15% decrease in response times. Additionally, delineated and integrated crucial data prerequisites, encompassing over 20 key parameters vital for real-time updates, location tracking, and comprehensive driver insights.
Technologies: golang, node,mongoDb, aws, casandra
Industry: Transportation

EMPLOYMENT HISTORY

• Full Stack Developer February-2023 - February-2024

Description: full stack engineer, took the responsibility mainly in the entire driver role module.

EDUCATION

• Bachelors degree in fire and safety from cusat 2018 - 2022

LANGUAGES

• English - advanced
