Software Developer with 1+ Years of experience in Asp.net core web API in the MOE project. As a .NET developer, you will play a critical role in the development of software applications using the Microsoft .NET framework. Your expertise in .NET programming languages, web development frameworks, and database technologies will be valued as you work with other team members to deliver high-quality software solutions that meet the needs of the business and its customers.

INDUSTRIES: Education, Human Resources

TECHNICAL SKILLS

• .NET Core	2 years & 1 months
• Angular	2 years & 1 months
• Asp.Net	2 years & 1 months
• CSS	2 years & 1 months
• SQL Server	2 years & 1 months

SOFT SKILLS

Communication, Problem-solving, Teamwork

PROJECT DETAILS

• Ministry Of Education January-2022 - May-2023

Project Description: As a .NET developer, your primary responsibility will be to design, develop, and maintain software applications using the Microsoft .NET framework. You will work with other members of the development team to identify and implement solutions that meet the needs of the business and its customers.

Responsibilities: Participate in the analysis, design, and development of software applications. Write clean, scalable, and maintainable code using .NET programming languages such as C#, VB.NET, or F#. Develop and maintain database applications using Microsoft SQL Server. Implement and maintain web applications using ASP.NET, MVC, Web API, or other related technologies. Collaborate with other team members to ensure the software solution meets customer and business requirements. Participate in code reviews and provide feedback to other developers. Diagnose and troubleshoot software defects and issues. Write and maintain technical documentation. Keep up-to-date with emerging trends and technologies in software development.

Technologies: Asp.net core web API, C#, SQL.

Industry: Education

• ATS January-2022 - May-2023

Project Description: As an Applicant Tracking System (ATS) specialist, you will be responsible for designing, implementing, and maintaining software systems that automate the recruitment process. Your role will involve working closely with HR managers, recruiters, and other stakeholders to ensure that the ATS is effective in identifying, tracking, and managing candidates throughout the hiring process.
Responsibilities: Collaborating with HR managers, recruiters, and other stakeholders to gather and analyze requirements. Designing, implementing, and maintaining ATS software systems. Configuring the ATS to meet the specific needs of the organization. Integrating the ATS with other HR systems (e.g., payroll, performance management). Providing training and support to recruiters and other users of the ATS. Staying up-to-date with emerging trends and technologies in ATS development.
Technologies: Asp.net core web API, C#, SQL.
Industry: Human Resources

EMPLOYMENT HISTORY

• Software Developer January-2022 - May-2023

Description: I have worked on SQL to handle RDBMS of large data processing, and hands-on practices about joins and stored procedures to Identifying areas for modification in existing programs and subsequently developing these modifications. I have worked on Asp.net core web API in the MOE project. Working on ATS Bug Fixing and working on ATS Documentation.

EDUCATION

• Bachelors degree in BE from Sri Subramanya College of Engineering & Technology, 2015 - 2019

LANGUAGES

• English - intermediate
