I am a highly motivated MERN Stack Developer with 2 years 3 months of experience in designing, developing, and implementing web applications. My technical skills include proficiency in both frontend and backend technologies, such as HTML5, CSS3, JavaScript, React.js, Redux, Angular, Node.js, Express.js, MongoDB, MySQL, Tailwind CSS, PHP, Git.

INDUSTRIES: Publishing, Management Software

TECHNICAL SKILLS

• Angular	2 years & 3 months
• PHP	2 years & 3 months
• MySQL	2 years & 3 months
• React	1 years & 2 months
• Node.js	8 months
• MongoDB	6 months

PROJECT DETAILS

• Vivek Saptahik — March-2022 - January-2024

Project Description: Developed a web based application to manage the inventory of published books, granths and magazines. It includes features such as estimates, invoices, reports, products and order management.
Responsibilities: Frontend development with Angular 11 to ensure a smooth user experience. Implemented backend functionalities in PHP to handle API integrations, and perform data operations. Utilizing MySQL for effective database management, storing and organizing data efficiently. Implemented lazy loading technique to enhance application performance, resulting in a 70% reduction in initial bundle size. Developed printable reports utilizing ngx-print package and also implemented functionalities such as search, filtering and sorting features.
Technologies: Angular 11, PHP, MySQL, Angular Material
Industry: Publishing

• Matrimony Website — October-2021 - February-2022

Project Description: This online matrimonial platform primarily focused on assisting individuals discovering potential marriage matches based on their specified properties.
Responsibilities: Frontend development utilizing Angular 11 to craft interactive and responsive user experience. Implemented backend development with PHP to create API's for effectient handling of database operations. Addressed and resolved software defects. Established user authentication and authorization mechanisms through session management and OTP based login implementation.
Technologies: Angular 11, PHP, MySQL, Bootstrap
Industry: Management Software

EMPLOYMENT HISTORY

• Web Developer October-2021 - January-2024

Description: Designed a resilient API using, PHP, Node JS and Express JS to facilitate smooth data retrieval from MySQL and MongoDB. Build responsive user interface using Angular and React. Revised, modularized and modernized legacy code bases to adhere to contemporary development standards, enhancing code readability and maintainability. Contributed to every stage of the systems development lifecycle, starting with requirements gathering and progressing through to production releases.

EDUCATION

• Bachelors degree in Information Technology from Savitribai Phule Pune University 2016 - 2019

• Diploma degree in Computer Engineering from Maharashtra State Board of Technical Education 2013 - 2016

• School degree in SSC from Aurangabad Divisional Board 2012 - 2013

LANGUAGES

• English - intermediate
