TECHNICAL SKILLS

• JavaScript	2 years
• Node.js	1 years & 9 months
• React	1 years & 5 months
• My SQL	1 years & 1 months
• HTML	1 years & 10 months

PROJECT DETAILS

• Cosfymart July-2022 - November-2023

Project Description: Cosfymart provides a mobile-based solution for creating an E-Commerce Platform that will act as a bridge between retail customers and vendors. This solution will provide a seamless shopping experience by allowing the registered users to complete their product purchase from any of the registered vendors through just a few clicks to the application. With our innovative solutions, we aim to provide a seamless experience for both customers and vendors in the e-commerce and subscription industry. By leveraging our mobile and web applications, customers can conveniently place their orders, while vendors can efficiently manage their orders and subscriptions. In order to streamline the payment process for our customers, we have implemented the razorpay payment integration. This ultimately leads to enhanced customer satisfaction and improved business operations for vendors. Admin will be handling the list of vendors & the payment settlements. Hence, the application will be developed for these purposes.
Responsibilities: • Worked as a full stack developer. • Worked on the Database architecture, API integration, and Inventory management. • Involved in analyzing and developing the solution. • Involved in defect fixing and deployment.
Technologies: Node.js ,Socket.io, Push Notifications and S3 Bucket,Hosted on MySQL
