Five minutes early is on time, on time is late. Creative and dedicated aspiring full-stack developer with 7+ years of experience, specializing in front-end development. With a strong passion for building and designing captivating user interfaces, I am eager to enhance my skills in a stimulating work environment. Committed to delivering projects with unwavering enthusiasm and exceptional effort. Proficient in web3 technologies, I possess the knowledge and patience to turn innovative ideas into reality. Embracing the magic of the web, I strive to create seamless and immersive digital experiences.

**INDUSTRIES:** Blockchain, Agricultural

## TECHNICAL SKILLS

| | |
|---|---|
| • React | 7 years |
| • MySQL | 7 years |
| • MongoDB | 6 years |
| • Express | 6 years |
| • Next JS | 6 years |
| • Vue.js | 5 years & 2 months |
| • Angular | 5 years & 6 months |
| • NestJs | 4 years |
| • PostgreSQL | 4 years & 5 months |
| • AWS | 4 years & 9 months |
| • Django | 4 years & 4 months |
| • Asp.Net | 4 years & 7 months |
| • GraphQL | 3 years & 8 months |
| • Web3 Js | 3 years & 7 months |

## SOFT SKILLS

Communication, Teamwork, Problem-solving, Time management

## PROJECT DETAILS

• LSD Staking — June-2023 - October-2023

Project Description: Liquidity Staking App. I provides higher APR than popular liquidity staking protocol like Lido or Rocket.
Responsibilities: Responsible for full process from design to deployment
Technologies: React, Blockchain, Web3
Industry: Blockchain
Link: https://lsdprotocol.io/

• Agresource — May-2022 - February-2023

Project Description: Provide all necessary info for agriculture in Peru.
Responsibilities: Responsible for frontend development with React.js.
Technologies: React
Industry: Agricultural
Link: https://agresource.com/

## EMPLOYMENT HISTORY

• Full Stack Developer October-2021 - December-2023

Description: Spearheaded the development of engaging and interactive user interfaces using React and Angular, ensuring a seamless end-user experience. Improved user engagement and load times by 30% using React.js, Next.js, and Tailwind CSS for decentralized apps, leading to a $50K annual revenue increase. Enhanced data retrieval speed by 30% with Ether.js for Ethereum. Leveraged ASP.NET and Django to design robust backend systems, enhancing performance and scalability of web applications. Collaborated with cross-functional teams to successfully deliver projects within deadlines, demonstrating teamwork skills.

• Full Stack Developer June-2020 - September-2021

Think BIT

Description: Proficient in React, Angular, React Native, SEO, WebSocket, GraphQL, Gitlab, Firebase. Utilized React and Angular to optimize web SEO, driving a 15% organic search traffic increase and boosting customer satisfaction by 25%. Web Sockets led to a 25% uplift in user engagement. Incorporating Firebase expedited data retrieval by 27% and heightened security. Collaborated with a cross-functional team on ASP.NET backend development, achieving a 30% decrease in response time. Also introduced GraphQL to improve API performance and flexibility, resulting in a 25% reduction in network traffic and faster data retrieval.

• Software Developer July-2019 - May-2020

Pathlight

Description: Developed and maintained a highly interactive web application using React, Vue resulting in a 30% increase in user engagement and a 20% decrease in bounce rate. Implemented cutting-edge solutions in mobile development using React Native, resulting in a 40% enhancement in app performance metrics. AWS integration enhanced performance and scalability by 25% and reduced operational costs by 15%. Developed and deployed a RESTful API for a microservices architecture using Node.js and Express.js, enabling seamless communication between different services. Docker and Kubernetes adeptly handled a 300% rise in user traffic without downtime, thanks to microservices.

• Front End Developer April-2017 - May-2019

Keeves Technologies

Description: Played a key role in the development of a web application using JavaScript and React, providing support in front-end development tasks and UI enhancements. Optimized state management with Redux, cutting unnecessary re-renders by 50% and enhancing user experience significantly. Implemented strategies that resulted in a 20% decrease in bug occurrences, enhancing overall performance and user satisfaction. Integrated third-party APIs, expanding the functionality of the application.

## EDUCATION

• Bachelors degree in Computer Science from NANYANG TECHNOLOGICAL UNIVERSITY 2012 - 2016

## LANGUAGES

• English - advanced
