Enthusiastic and skilled computer science professional with a strong academic background and a wealth of experience in the realm of software development and data science. Armed with a degree in Computer Science and a prestigious certification in Data Science, I am adept at leveraging cutting-edge technologies to design and implement innovative solutions. Education and Certifications: Bachelor's Degree in Computer Science Certification in Data Science Technical Proficiency: Programming Languages: Java SE 8, HTML, JavaScript, TypeScript Frameworks: Spring Boot, Hibernate, Angular Database Technologies: MySQL, Microsoft Azure, MongoDB, Kafka Web Technologies: Servlet, CSS, Bootstrap, NodeJs Development Tools: Docker, Git, SQL, Maven Testing: JUnit, Postman Methodologies: Agile Skills Highlights: Proficient in building and maintaining robust applications using Java and related technologies. Expertise in database systems and SQL, with a focus on MySQL and MongoDB. Extensive experience in front-end development with HTML, JavaScript, TypeScript, and Angular. In-depth knowledge of Spring framework, including Spring Boot, Spring JPA, Spring Core, Spring MVC, and Spring Rest API. Familiarity with software development practices and a strong advocate for Agile methodologies. Security-conscious, with hands-on experience in implementing Spring Security with JWT. Well-versed in utilizing Microsoft Azure services for cloud-based solutions. Skilled in containerization using Docker for efficient deployment. Proficient in version control with Git and collaborative coding using Visual Studio Code and Eclipse. Adept at working with relational databases (SQL) and NoSQL databases. Effective in messaging systems with expertise in Kafka. Excellent communication skills and a keen problem solver.

INDUSTRIES: Ecommerce, Gaming

TECHNICAL SKILLS

• Java	3 years & 2 months
• Node.js	3 years & 2 months
• Git	3 years & 2 months
• Hibernate	3 years & 2 months
• JavaScript	3 years & 2 months
• RESTful API	3 years & 2 months
• REST APIs	3 years & 2 months
• MySQL	3 years & 2 months
• Angular	3 years & 2 months
• TypeScript	3 years & 2 months
• Spring Boot	3 years & 2 months
• Microsoft Azure	2 years
• MongoDB	2 years
• Docker	1 years & 5 months

SOFT SKILLS

Communication, Teamwork, Problem-solving, Critical thinking, Time management

PROJECT DETAILS

• Chris DeSouza Site

Project Description: Ecommerce Site The primary objective of this project was to develop a feature-rich e-commerce platform focused on selling clothing items. The system is designed to provide users with a seamless shopping experience while ensuring efficient management of products and orders. Leveraging Microsoft Azure's robust database services, all critical entities, including products, customer information, orders, and inventory, are securely stored and managed in the cloud.

Responsibilities: Implementing the database the frontend and the backend integration.

Technologies: Java 15, Spring Boot, Spring Data JPA, Angular 14, HTML, CSS, TypeScript, and Microsoft Azure SQL Database,SpringMail,

Industry: Ecommerce

• LetterBox for gaming

Project Description: The primary object of the project is to develop a platform focused on letting users review videogames as well as providing suggestions for those uses. The site will allow uses to connect to their game accounts on Nintendo Playstation Xbox and Steam using their apis to connect to our site. Using online cloud sql database to store and manage Videogame information along with User information.

Responsibilities: Implementing the database the frontend and the backend integration

Technologies: Java 15, Spring Boot, Spring Data JPA,, Angular 14, HTML, CSS, TypeScript, Microsoft Azure SQL Database, Spring Mail

Industry: Gaming

EDUCATION

• Bachelors degree in Computer Science from Iona University 2013 - 2017

LANGUAGES

• English - native
