I've developed crawling backbone software in Perl much before even scrapy framework was launched. I've good scrapy exp & have developed a scrapy based engine customized to meet our clients requirement. I've good hold developing customized modules to ensure end-to-end data delivery. I can also work as backend developer too.

INDUSTRIES: Fashion, Shipping, Government

TECHNICAL SKILLS

• Python	5 years
• SQL	5 years
• AWS	5 years
• Perl	5 years
• Scrapy	5 years
• Java	3 years
• Elasticsearch	1 years
• MongoDB	1 years

SOFT SKILLS

Time management, Communication, Problem-solving

PROJECT DETAILS

• Web Scraping January-2015 - March-2024

Project Description: Develop, maintain, enhance, robust scraping system for clients in different domain such as fashion stores, cybersecurity, Construction, Real Estate, so on. Develop backend system, aggregator and reporting using Python & Elastic Search. Ensure steady stream of data flows into our client's systems.
Responsibilities: Lead technical team New crawler development & maintenance Crawl break alerts Requirement gathering, defining scope for all possible usecase Distributed crawling - design, development, automation & workflows Data management - cleansing, normalization, structuring, data integrity, monitoring, quality, scale Event management - failure detection
Technologies: Python, Java, Scrapy
Industry: Fashion

• Shipgenie November-2006 - July-2011

Project Description: Shipgenie - A Saas based shipping software that communicates with data house to pull shipment records into Oracle database that on communicating with fulfillment companies to generate end-to-end shipping report.
Responsibilities: To develop a SaaS based web application that helps in shipping products using real time FEDeX, DHL APIs . Scan barcodes and run APIs. Import bulk shipments and process them.
Technologies: Java, J2EE
Industry: Shipping

• FACES August-2011 - December-2014

Project Description: Migration from struts, hibernate to spring MVC for Child welfare department of US govt.

Responsibilities: Migration from struts, hibernate, to spring MVC for child welfare department of US Govt. Managed large complex projects for multiple components of a large project involving more than one companies

Technologies: Java, Spring, Struts, hibernate, JPC

Industry: Government

EMPLOYMENT HISTORY

• Senior Software Engineer January-2015 - March-2024

EDUCATION

• Bachelors degree in Computer Engineering from Mumbai University 2002 - 2006

LANGUAGES

• English - advanced
