I'm an 2+ years experienced software development engineer collaborated cross functional teams and worked in 3+ data analytics projects mainly with rust in a FinTech company.

INDUSTRIES: FinTech

TECHNICAL SKILLS

• Rust	2 years & 2 months
• Oracle	2 years & 2 months
• Linux	2 years & 2 months
• Git	2 years & 2 months
• MySQL	2 years & 2 months

SOFT SKILLS

Problem solving, Adaptability, Communication, Teamwork, Resourcefulness, Critical thinking

PROJECT DETAILS

• Bank Asset and Liability Management — September-2021 - October-2023

Project Description: Bank asset and liability management deals with bank's raw core data and analysis of interest risk, market risk etc and breaks down the data to a cashflows or aggregated level for clients visualisation.
Responsibilities: Designed and developed the preprocessing and cashflow generating programs, implemented and deployed to the production according to client specifications.
Technologies: Rust, oracle, MySQL, linux scripting
Industry: FinTech

• Fund Tranfer Pricing (FTP) — September-2021 - October-2023

Project Description: Ftp deals with a management accounting technique where profits are amenating such as low cost liabilities, high yielding assets etc. It provides banks with ability to measure and evaluate net interest margin and compute profitability across assets and liabilities. It takes complexity out of FTP calculation by considering embedded market risk, using multiple transfer pricing methods.
Responsibilities: Designed, documented and developed various and tailored generic programs that give optimised results and calculate the final FTP rates for all methods.
Technologies: Rust, MySQL, oracle, linux scripting, bash scripting
Industry: FinTech

EMPLOYMENT HISTORY

• Software Development Engineer — September-2021 - October-2023

Description: Collaborate with cross functional teams and analyse approaches for requirements. Design and deploy optimised solutions as per client specifications. Review code, conduct kt sessions, and document software development methodologies and approaches. Deploy to production, quickly analyse the production issues and fix them.

EDUCATION

• Bachelors degree in Computer science from Ballari institute of technology and management — 2017 - 2021

LANGUAGES

• English - advanced
