PROJECT DETAILS

- OneApp

Project Description: OneApp is a Consent Management platform provided by FinTech Products and Solutions India Pvt Ltd that facilitates citizens to securely share their data with any partner of their choice. OneApp acts as a data sharing intermediary that helps customers share their data (financial/non-financial) either fetched directly from data provider or from customer's personal storage using explicit consent.
Responsibilities: I've worked both the OneApp SDK and the OneApp, refactoring the code to follow Clean Architecture and Test Driven Development approach.
Technologies: Flutter
Industry: Finance

• Kapiva

Project Description: An ecommerce app for both Android and iOS for selling Ayurvedic products along with doctor consultation.
Responsibilities: I worked on the app from scratch implementing features like payment gateways using Juspay and Nimbbl and dynamic linking using Branch.io.
Technologies: Flutter, Firebase
Industry: Ecommerce
Link: https://play.google.com/store/apps/details?id=com.kapiva.app&hl=en&gl=US

• Vidya Kamal

Project Description: A social and E-Learning mobile application for Karyakartas.
Responsibilities: I worked on the app from scratch implementing features like Login and Sign Up using OTP, YouTube video playback and pdf reader.
Technologies: Flutter
Industry: Education
Link: https://play.google.com/store/apps/details?id=com.bjym.vidyakamal&hl=en_IN&gl=US

• Seeti

Project Description: The fastest growing "elite sports networking platform"
Responsibilities: I mostly worked on bug fixes, feature addition and testing for making the ready for release.
Technologies: Flutter
Industry: Social Media
Link: https://www.seeti.in/

EMPLOYMENT HISTORY

• Flutter Developer

Description: Used flutter_bloc and provider for state management. Integrated REST, GraphQL and gRPC APIs. Integrated Nimbbl and Juspay Hyper SDK for online payment. Implemented Deep linking using Branch.io. Wrote unit and integration tests. Created a Flutter SDK to integrate with other flutter apps

• Flutter Developer June-2021 - December-2021

Gamatics India Pvt Ltd
Description: Prepared the app for release by adding features and fixing bugs. Used provider for state management. Used Hive database for storing user credentials for easy login. Implemented Deep linking using Firebase Dynamic Links. Scheduled local notifications to remind users to add mood data.
