Certifications Microsoft Certified Azure Data Engineer Associate Professional Scrum Master

INDUSTRIES: Healthcare, Retail

TECHNICAL SKILLS

• SQL Server	10 years
• SSIS	7 years & 1 months
• ETL	5 years
• Snowflake	4 years & 6 months
• Dell Boomi	3 years & 1 months
• Azure Data Factory	3 years & 1 months
• Python	3 years & 6 months
• Databricks	2 years & 1 months

SOFT SKILLS

Quick learner, Ownership, Highly Committed, Collaborative

PROJECT DETAILS

• NTTData Healthcare Analysis — November-2023 - March-2024

Project Description: In the US healthcare research project, I am writing complex SQL queries in Snowflake to create the cohort tables and load the data from various state data. Each state has their own data model and I am responsible to understand the data models and pull the required data and store in the cohort table to start the analysis and research.
Responsibilities: Writing complex SQL queries in Snowflake data warehouse to create the cohort data for various states from USA
Technologies: Snowflake
Industry: Healthcare

• SPARC July-2022 - March-2023

Project Description: As a senior technical lead, newly established the 24x7 support processes and procedures. Technically guiding the 11-member team to meet 100% SLA on the production support of 300+ data integration processes for the past 2.5 years. Technically leading the Teradata to Snowflake migration with 2-member team. Technical hands on in Dell Boomi, Snowflake, SSIS, Informatica, Datadog, AWS & Azure. Azure Synapse, Spark, Hive, Azure Data Factory, Cosmos DB & Python
Responsibilities: Technically guiding the team on ensuring the quality delivery of the development projects. Technically training the new joiners and freshers. Quality review (Code review, process review, & document review).
Technologies: Snowflake
Industry: Retail

EMPLOYMENT HISTORY

• Senior Data Engineer November-2023 - March-2024

Description: Senior data Engineer. Writing complex SQL queries in Snowflake data warehouse to create the cohort data for various states from USA

CERTIFICATION

• • Microsoft Certified: Azure Data Engineer Associate – Sep-2023 by Microsoft 2023

EDUCATION

• Masters degree in MathematicsInformation Technology from Madras University 2004 - 2006

LANGUAGES

• English - advanced
