Communication, Team Handling, Team lead, Critical thinking, Client Handling, Team Management

PROJECT DETAILS

• Teabox In, Teabox US — May-2021 - May-2022

Project Description: These are Ecommerce websites on shopify platform. We created these both store from scratch.

Responsibilities: Responsible for frontend development, including Collection Page, Product Page, Home Page, and SideCartdrawer. Utilized SAAS and ReactJS Helmet for streamlined styling and metadata management. Employed Webpack for deployment optimization, specifically for file minification, ensuring faster page loading times. Integrated ReactGA for SEO purposes, enhancing website visibility and search engine ranking. Implemented Redux, Redux Saga, and Redux Persist for efficient state management across the application. Developed the Checkout Script using Ruby for seamless transaction processing and order management.

Technologies: HTML, CSS, Liquid, Jquery, JS ES6

Industry: Beverages
