• Incident Response	3 years

SOFT SKILLS

problem-solving, teamwork, critical thinking

PROJECT DETAILS

• CryptoGuard — January-2021 - Present

Project Description: CryptoGuard is a data protection application that leverages encryption and Public Key Infrastructure (PKI) to secure sensitive data at rest and in transit.
Responsibilities: Designed and implemented the encryption scheme, integrated PKI for secure key exchange, and conducted security audits to identify vulnerabilities and ensure compliance.
Technologies: Encryption, PKI
Industry: Cybersecurity

• SecureNet — March-2019 - August-2020

Project Description: SecureNet is a comprehensive cybersecurity solution that combines the power of Security Information and Event Management (SIEM) with advanced firewall and intrusion detection/prevention systems (IDS/IPS).
Responsibilities: Led the development and deployment of SIEM rules, configured firewall policies, and fine-tuned IDS/IPS signatures. Collaborated with cross-functional teams to ensure the effectiveness of security measures.
Technologies: SIEM, Firewall, IDS/IPS
Industry: Cybersecurity

EMPLOYMENT HISTORY

• IT Security Specialist — May-2016 - Present

Description: As an IT Security Specialist at CyberGuard Solutions, I am responsible for designing, implementing, and managing security solutions to protect the organization's digital assets and infrastructure.
