• SIEM	7 years
• IAM	7 years

SOFT SKILLS

analytical thinking, attention to detail, communication

PROJECT DETAILS

• Data Breach Response — March-2016 - Present

Project Description: Data Breach Response program focuses on rapidly identifying and containing data breaches, conducting forensic investigations, and implementing corrective measures to prevent future incidents.
Responsibilities: Developed incident response playbooks, led forensic investigations to identify breach origins, and collaborated with legal teams to handle breach notifications and regulatory compliance. Conducted training sessions to raise awareness about data security best practices.
Technologies: Incident Response, Forensics
Industry: Cybersecurity

• SecureData — October-2013 - July-2015

Project Description: SecureData is an enterprise-wide data security initiative aimed at safeguarding sensitive data through encryption, robust access controls, and continuous monitoring.
Responsibilities: Led the implementation of data encryption protocols, configured Security Information and Event Management (SIEM) systems for real-time threat detection, and established Identity and Access Management (IAM) policies. Collaborated with cross-functional teams to ensure compliance with data protection regulations.
Technologies: Encryption, SIEM, IAM
Industry: Cybersecurity

EMPLOYMENT HISTORY

• Data Security Analyst June-2011 - Present

Description: As a Data Security Analyst at CyberGuard Solutions, I am responsible for developing and maintaining effective data protection strategies to safeguard sensitive information against cybersecurity threats.
