I have 7 years experience of my work in MS SQL Database Developer/ Administrator, ETL /SSIS/SSRS developer and Support. Working as an individual as well as in teams enhanced my skill set. My job experience has helped me to groom my Team Management, Time Management, Problem Solving, Reporting, and Communications skills. The combination of my solid educational background and practical work experience makes me a superior candidate for this position.

INDUSTRIES: Software and Platforms, Automation

TECHNICAL SKILLS

• SQL MySQL	7 years
• Database development	7 years
• SQL	7 years
• SQL Server	7 years
• SQL Server Analysis Services	6 years

SOFT SKILLS

Communication, Problem-solving, Teamwork, Time management

PROJECT DETAILS

• Point of Sale January-2021 - April-2023

Project Description: Manage all Database and keep them 24/7 in running state Identification and resolution of any issue in the Database. Deploy DB updates on Production and UAT machines.
Responsibilities: Create new Microsoft SQL Server instances and configure them, including AlwaysOn availability groups and failover clustering
Technologies: SQL,Power BI
Industry: Software and Platforms

• Qatar Drainage System

Project Description: Monitoring database performance Check SQL Backups SQL Services are up and running
Responsibilities: Responsible for creating/updating SSIS packages according to user requirements.
Technologies: SQL,Maps
Industry: Automation
