Experienced Data Warehouse Architect with a strong background in designing scalable and efficient data storage solutions. Skilled in ETL processes, data modeling, and performance optimization.

INDUSTRIES: Technology, Retail

TECHNICAL SKILLS

• Data Modeling	9 years
• ETL Processes	9 years
• SQL	9 years
• Data Governance	7 years
• Cloud Data Warehouses	5 years
• Big Data Technologies	4 years

SOFT SKILLS

problem-solving, communication, team leadership

PROJECT DETAILS

• Real-time Data Processing Platform — January-2017 - December-2018

Project Description: Architected a real-time data processing platform for capturing and analyzing streaming data. Empowered the business with timely insights for decision-making.
Responsibilities: Designed and implemented data streaming pipelines using Apache Kafka and Apache Spark. Integrated Elasticsearch for real-time data search and visualization.
Technologies: Apache Kafka, Apache Spark, Elasticsearch
Industry: Technology

• Enterprise Data Warehouse Redesign — April-2014 - August-2015

Project Description: Led the redesign of the enterprise data warehouse to accommodate growing data volumes and improve query performance. Migrated to Snowflake for its scalability.
Responsibilities: Designed and implemented ETL processes, data transformation workflows, and optimized data models. Collaborated with business analysts to define data requirements.
Technologies: Snowflake, SQL Server Integration Services (SSIS), Tableau
Industry: Retail

EMPLOYMENT HISTORY

• Data Warehouse Architect — June-2012 - Present

Description: As a Data Warehouse Architect at DataInsights Solutions, I lead the design and optimization of data storage solutions, ensuring data integrity and performance.

CERTIFICATION

• Snowflake Certified Data Engineer by Snowflake Inc.	2019
• Certified Data Management Professional by Data Management Association International	2014

EDUCATION

• Master's degree in Computer Science from Indian Institute of Technology 2008 - 2010

LANGUAGES

• English - advanced
