Experienced System Engineer with a strong background in designing, implementing, and maintaining complex IT infrastructure solutions.

INDUSTRIES: Finance, Technology

TECHNICAL SKILLS

• Networking	7 years
• Monitoring and Troubleshooting	7 years
• Virtualization	6 years
• Security	6 years
• Cloud Computing	5 years
• Infrastructure as Code	4 years

SOFT SKILLS

problem-solving, communication, teamwork

PROJECT DETAILS

• High Availability Data Center — November-2018 - March-2020

Project Description: Architected and managed a high availability data center environment. Utilized VMware virtualization, Cisco networking, and SAN storage solutions.
Responsibilities: Ensured uptime, disaster recovery, and data integrity. Conducted performance tuning and capacity planning.
Technologies: VMware, Cisco, SAN
Industry: Finance

• Scalable Cloud Infrastructure — March-2015 - July-2017

Project Description: Designed and deployed a scalable cloud infrastructure using AWS services. Utilized Terraform for infrastructure as code and Docker for containerization.
Responsibilities: Implemented auto-scaling, load balancing, and security measures. Optimized cost and performance through cloud resource optimization.
Technologies: AWS, Terraform, Docker
Industry: Technology

EMPLOYMENT HISTORY

• System Engineer — August-2014 - Present

Description: As a System Engineer at TechSys Solutions, I focus on designing and maintaining reliable and efficient IT infrastructure solutions.

CERTIFICATION

• VMware Certified Professional by VMware	2017
• AWS Certified Solutions Architect by Amazon Web Services	2016

EDUCATION

• Bachelor's degree in Computer Engineering from National Institute of Technology 2010 - 2014

LANGUAGES

• English - advanced
