I'm skilled back end and front end developer experienced in Java, Python, and ReactJS development. I specialised in developing server-side application and database that meet or exceed my client expectations. I am a highly analytical back end and front end developer with SQL and React expertise. I develop efficient and secure system that meet client needs.

INDUSTRIES: Human Resources, Finance, Ecommerce

TECHNICAL SKILLS

• Java	5 years & 1 months
• Spring Boot	5 years & 1 months
• Hibernate	5 years & 1 months
• Core Java	5 years & 1 months
• REST APIs	5 years & 1 months
• MySQL	3 years & 1 months
• SQL Server	3 years & 1 months
• JavaScript	3 years & 1 months
• AWS	2 years & 1 months
• React	2 years & 1 months
• Advanced Java	2 years & 1 months
• HTML & CSS	2 years & 1 months
• Mongo DB	2 years & 1 months
• Next JS	1 years & 1 months
• Redux	1 years & 1 months

PROJECT DETAILS

• Flex Force

Project Description: Flex Force, founded in 2010, is a business focused on transitioning promising new technologies in robotics, signal processing, and software into deployable products.
Responsibilities: Designing and implementing the backend infrastructure for the flex force. Collaborating with cross functional team to define, design, and ship new features. Conducting code reviews and maintaining code quality. Troubleshooting, debugging, and optimizing the application for performance.
Technologies: Java, Springboot, MongoDB
Industry: Human Resources

• Card Management system

Project Description: It's card management platform where user can manage their cards.
Responsibilities: Developed functionalities for card issuance, activation, blocking, and cancellation, ensuring smooth management of card life cycle events. Designed and developed the architecture of a robust card management system using Java Spring boot, ensuring scalability and maintainability. Collaborated with QA teams to conduct thorough testing including unit testing and integration testing, ensuring system reliability and stability.
Technologies: Java, Springboot, MS SQL server
Industry: Finance

• Snacks

Project Description: It is an ecommerce website where we can buy our snack like chips, lays and many more items related to our daily snacks.
Responsibilities: Used axios for data fetching and formik and Yup for form validation. Did integration (Pagination, sorting, filtering) using API. Host on AWS
Technologies: React, Material UI, Redux-Thunk, Typescript
Industry: Ecommerce

• Adani One

Project Description: Adani one is Make flight booking, enjoy pranaam meet & greet service, and shop at Duty free with Adani one, and get rewards on every transaction. Experience goodness with seamless access to world-class service and facilities.
Responsibilities: Designed Add to cart page and payment using Ant design.
Technologies: React, Redux, Ant Design
Industry: Ecommerce

EMPLOYMENT HISTORY

• Senior Full Stack Developer June-2022 - June-2024

Description: Developed REST APIs for financial scenarios. Developed front end by using react and redux, built service, models using JPA and implemented. Completed task in time with unit testing on local and SIT enviornment. Managing branches to support concurrent development and merging code changes using GIT workflow such as feature branching. Gone through the documents for understanding functional scenarios. Write highly efficient complex algorithms. Attended Daily internal scrum meeting

• Associate software engineer March-2020 - May-2022

Cloud Destination
Description: Led full project life cycle efforts, providing leadership from design phase, through quality assurance and data manipulation. offered troubleshooting in python file processes, providing redesigned best practices and process improvement. Worked on JSON, postman and executed various CRUD operations. Worked on spring boot with database and created APIs. Wrote, reviewed and edited technical document in accordance with project requirement.

• Software consultant February-2018 - February-2020

Paytabs
Description: Demonstrated expertise in configuring and optimizing code to align with Design parameters. Collaborated with developers to identify and eliminate bugs, ensuring smooth project execution. Tested methodology with writing and execution of test plans, debugging and testing scripts. Engaged in open discussion with team members to facilitate issue resolution and implement industry best practices. Conducted thorough analysis of source code to identify and address functionality issues proactively. Fostered collaborative relationships with team members to contionusly learn and incorporate best practices in software design.

EDUCATION

• Bachelors degree in Computer science & Engineering from Sikkim Manipal Institute of Technology 2014 - 2018

LANGUAGES

• English - advanced
