Teamwork, Time management, Problem-solving, Communication, Multi-tasking

PROJECT DETAILS

• Shibarium July-2021 - July-2022

Project Description: Spearheaded the UI UX development for Shibarium, integrating advanced wallet connectivity and smart contract functionalities. This project increased user adoption by 60 percent within the first three months post-launch
Responsibilities: I have developed the whole front end and supervise team of 3 developers.
Technologies: React, React Native, Smart contract
Industry: Blockchain

• FM Radio App August-2022 - February-2023

Project Description: The objective is to develop a React Native application for an Indian FM radio station operating on the frequency 89.6. This app is aimed at providing a seamless radio streaming experience for both Android and iOS users. It will feature live streaming of the radio broadcast, allowing user to listen to their favorite shows in real time. Additionally, the app will incorporate a live request feature, enabling listeners to request songs directly through the app
Responsibilities: I am responsible for developing the Android and IOS app for this in React Native.
Technologies: React Native
Industry: Entertainment
