PROJECT DETAILS

• PaperNotes Postcards June-2020 - September-2020

Project Description: PaperNotes Postcards revolutionizes customer retention by automating personalised post card campaigns for Shopify users. This app is an invaluable asset for businesses seeking to forge stronger connections with their customers.
Responsibilities: I have developed this Shopify App from scratch using Laravel for backend. I have developed this E-commerce website on Shopify. The designs are provide by the client.
Technologies: React (Polaris framework), Laravel, Shopify cli, MySQL
Industry: CRM

• Pin Auto: Pinterest Publisher February-2021 - May-2024

Project Description: The Pin Auto app is ideal for merchants aiming to broaden their presence on pinterest. This app helps by automating the pinning process, guaranteeing that every product image is not just pinned, but also placed on a correct board.
Responsibilities: I have developed the whole App and publish it on Shopify App Store.
Technologies: React (Polaris framework), Laravel, Shopify cli, MySQL, NodeJS
Industry: Creative

• Rawpetfood February-2023 - May-2023

Project Description: Raw pet Food is a 100% complete and balanced fresh dog and fresh cat food. It is an app where you can order fresh raw food for your pet at an affordable price with no chemicals and preservatives. It exceeds the nutrients requirements set by AAFCO.
Responsibilities: I have developed this E-commerce website on Shopify. The designs are provide by the client.
Technologies: JavaScript, Liquid, Shopify and its APIs
Industry: Petconomy
