UI/UX designer with 8 years of hands-on experience in software engineering. Proficient in utilizing debugging tools and implementing solutions grounded in object-oriented principles, design patterns, and best practices in software design and architecture. A collaborative team player, adept at thriving in technically adept environments, particularly within the frontend development, where I excel in overcoming complex challenges. With a diverse portfolio encompassing corporate, charity and public sector clients, I've consistently delivered high-caliber applications and solutions. Passionate about front-end technologies and dedicated to staying at the forefront of industry trends. Committed to crafting exceptional user experience and surpassing project expectations with each endeavor.

PROJECT DETAILS

• Sanadeeg May-2019 - October-2020

Project Description: It's an E-commerce website for Groceries. Users can create profiles and buy products. User can filter products according to their choice and add to cart.
Responsibilities: I have designed UI/UX for the website. Initially, I started with creating mockup designs as per client preference and then converted Photoshop designs to HTML/CSS. Then integrate it to Shopify platform.
Technologies: Photoshop, Shopify, Php
Industry: Ecommerce
Link: https://sanadeeg.com/

• Accountify June-2020 - November-2023

Project Description: Accountify is a Shopify based Web Application where Shopify store owners can see their real time profit, cost of sales and revenue etc. There are numerous features that users/owners can use and that will help them to see their business stats on daily bases. Accountify also allows you to quickly & accurately analyse your store's overall profit. Accountify Breaks Down Your Expenses Into 3 Categories: Cost of Sales - Product cost, shipping cost and transaction fees and other variable expenses.
Responsibilities: Created this website using React, Bootstrap, UI UX.
Technologies: HTML, CSS, Bootstrap and React, UI/UX
Industry: Finance

• Kingstrader November-2019 - June-2021

Project Description: Kings Trader is a Ready-to-wear shoe collection store that also gives you an amazing option of customizing a shoe as per your preferences.
Responsibilities: I have designed UI/UX for the website. Initially, I started with creating mockup designs as per client preference and then converted Photoshop designs to HTML/CSS. Then integrate it to the Shopify platform.
Technologies: Photshop, Shopify, HTML5, CSS3, PHP
Industry: Ecommerce
