Experienced Flutter Developer with over 3 years of professional experience in designing, developing, and maintaining high-performance mobile applications. Adept at using Dart and various state management techniques such as Provider, Bloc, Riverpod, GetX, and Redux. Proven track record in deploying cross-platform applications for Android and iOS, excelling in creating responsive and visually appealing UIs. Skilled in implementing SOLID principles, Clean Architecture, and Domain-Driven Design (DDD) to ensure the separation of business logic and UI. Proficient in using code generation tools to streamline development processes, thereby significantly reducing development time.

INDUSTRIES: Ecommerce, Automotive

TECHNICAL SKILLS

• Flutter	3 years & 6 months
• Node.js	3 years
• JavaScript	3 years & 6 months
• Dart	3 years & 6 months
• Angular	2 years
• MongoDB	2 years

PROJECT DETAILS

• Quick Puff

Project Description: This an e-commerce app where the users can purchase e-cigarettes. This project has two apps for the user and delivery partner. This app works similar to the apps like Zomato and Swiggy.
Responsibilities: Team leader and development of the backend (all by myself), front-end (Project structure, logic, and data layer)
Technologies: Flutter, NodeJS, MongoDB, Xcode Cloud, Cloudinary, SendGrid, Redis
Industry: Ecommerce
