Bringing over 15 years of comprehensive IT industry expertise, specializing in UI development with proficiency in a spectrum of technologies, ensuring versatile skill sets across diverse web development domains & tech stack

INDUSTRIES: Ecommerce

TECHNICAL SKILLS

• MySQL	10 years
• JavaScript	10 years
• Git	10 years & 1 months
• CI CD Pipeline	10 years
• Node.js	10 years
• React js	5 years
• HTML5	5 years
• RESTful API	5 years
• Fastify	5 years
• Express	5 years
• Flutter	4 years
• Dart	4 years

PROJECT DETAILS

- Learning Solution

Project Description: Implementing optimization strategies to enhance application speed and scalability, ensuring optimal performance under varying loads and conditions. Proactively troubleshooting interface software and debugging application codes to swiftly resolve issues and maintain uninterrupted functionality. Troubleshoot interface software and debugging application codes.
Responsibilities: Implementing optimization strategies to enhance application speed and scalability, ensuring optimal performance under varying loads and conditions. Proactively troubleshooting interface software and debugging application codes to swiftly resolve issues and maintain uninterrupted functionality. Troubleshooting interface software and debugging application codes.
Technologies: React, Node
Industry: Ecommerce

• Ecommerce

Project Description: Spearheading a diverse array of projects, crafting visually captivating websites while fostering seamless collaboration with graphic designers, back-end developers, and marketing professionals. Engaging in client consultations to discern their precise requirements and objectives, ensuring alignment with project deliverables. Providing expert guidance and mentorship to team members on intricate web development challenges.
