I have more than 5 years of experience in manual, automation, and performance testing. Hands-on experience creating and maintaining Web Automation using Selenium and Java with multiple frameworks like Cucumber, Test-NG, and JUnit. Also, automate Web applications using Cypress, Playwright, and JavaScript with Cucumber. Additionally, work on automation tools like Testim and HuLoop, and creating and maintaining Mobile Automation using Selenium, Appium, and Java with Cucumber.

INDUSTRIES: Social Media, Ecommerce
