• Python	2 years & 2 months
• API Integration	2 years & 4 months
• API Testing	2 years & 4 months
• Java	1 years

PROJECT DETAILS

• Salesforce to Sap integration

Project Description: Piramal Realty is the real estate development arm of the Piramal Group, one of India's leading conglomerates. The company focuses on developing high-end residential and commercial properties, primarily in Mumbai. It emphasizes design, quality, and sustainability in its projects, collaborating with global architects and design firms.ce and other legacy systems using API-led connectivity, replacing the P2P integration pipeline
Responsibilities: The main aim of this project was to ensure the seamless integration of systems of record, where information automatically flows from the Salesforce into the SAP instance via APIs. Worked with Salesforce Platform Events to enable event-driven architecture and ensure real-time data updates. Applied MuleSoft API Manager policies for security, OAuth 2.0, Client ID Enforcement. Integrated with Salesforce Apex Class Endpoints to invoke custom business logic and process data efficiently. Extensively used Mule Debugger and had good experience in writing MIJnit Test Cases Developed and executed detailed test cases and scenarios to validate data integrity, error handling, and security protocols within the MuleSoft integration layers. Worked closely with Salesforce and SAP teams to align business and technical requirements Developed and executed detailed test cases and scenarios to validate data integrity, error handling, and security protocols within the MuleSoft integration layers. Implemented asynchronous messaging using Active MQ and AWS Suite Experience in developing flows, sub flows using Mule Anypoint Studio. Implemented OAuth 2.0 Authentication mechanisms to consume REST API's and Orchestration
