I am a Sr. ETL Kafka Developer with 5 years of experience in the field of data engineering. I am passionate about efficiently streaming and processing data from various source databases to drive real-time insights. My expertise includes ETL processes, Kafka, Debezium, GoldenGate, PySpark, MySQL, Oracle, and MongoDB. I am dedicated to ensuring data security and privacy while delivering high-quality solutions.

INDUSTRIES: Fintech

TECHNICAL SKILLS

• ETL	5 years
• SQL	4 years
• Oracle	4 years
• MySQL	4 years
• Kafka	3 years
• PySpark	3 years
• GoldenGate	2 years
• Debezium	2 years
• MongoDB	2 years
• Data Visualization	2 years
• JavaScript	2 years

SOFT SKILLS

Analytical thinking, Problem-solving, Data visualization

PROJECT DETAILS

• Real-time Data Streaming Platform — January-2020 - Present

Project Description: Designed and implemented a real-time data streaming platform that ingests data from multiple source databases (Oracle, MySQL, MongoDB) using Kafka, Debezium, and GoldenGate. Leveraged PySpark for data processing and updating target databases in real-time.
Responsibilities: Led the architecture design, data modeling, and development of data pipelines. Ensured data security and privacy compliance. Collaborated with cross-functional teams to provide actionable insights from streaming data.
Technologies: Kafka, Debezium, PySpark, MySQL, MongoDB
Industry: Fintech

• Data Visualization Dashboard — April-2019 - December-2019

Project Description: Built a data visualization dashboard using Superset to provide business stakeholders with real-time insights. Implemented SQL queries and utilized JavaScript for interactive dashboards.
Responsibilities: Designed and developed data visualization components. Created custom SQL queries to extract relevant data for visual representation.
Technologies: Superset, SQL, JavaScript
Industry: Fintech

EMPLOYMENT HISTORY

• Sr. ETL Kafka Developer July-2017 - Present

Description: Lead the development of real-time data streaming solutions and data visualization dashboards, ensuring data security and privacy in a fast-paced fintech startup.

CERTIFICATION

- Certified Apache Kafka Developer by Confluent 2020
- Certified Spark Developer by Databricks 2019

EDUCATION

- Bachelors degree in Computer Science from Bangalore University 2015 - 2019

LANGUAGES

- English - advanced
