• Remix	4 years
• TailwindCSS	4 years

SOFT SKILLS

Communication, Teamwork, Problem-solving, Time management, Critical thinking

PROJECT DETAILS

• REDACTED

Project Description: REDACTED offers energy storage products that are optimized for common customer applications but can be configured for specific use cases and requirements. All Fluence products can be delivered as turnkey solutions to the customer including all associated balance of plant equipment.
Responsibilities: Design and review system architecture. Align system with business goals, oversee implementation, ensure scalability. Collaborate with stakeholders on requirements. Manage project timelines and deliverables.
Technologies: ReactJS, React-Query, Redux, React Native, Python, GCP, PostgreSQL
Industry: Software and Platforms

• #REDACTED#

Project Description: Analyze current and historical bid-ask spreads, book depth measures, and cost-to-trade statistics for Group products across three distinct global time zones. This tool enables users to understand and analyze liquidity data over time.
Responsibilities: Lead a team of UI developers, Requirement discussion and sprint planning, Project structuring and architecture
Technologies: ReactJS, Redux Thunk, JavaScript, D3.js, HTML, CSS(SASS)
Industry: Software and Platforms

• [REDACTED]

Project Description: Kasper is an intelligent, integrated platform designed to assist dental practitioners in efficiently managing their practices, communicating with patients, and handling appointments. It utilizes web-based applications developed with React.js and mobile native apps for Android and iOS built with React Native.
Responsibilities: Software design and development. Lead a team of UI developers, Requirement discussion and sprint /planning, Project structuring and architecture finalization, Mentor team members, and Code reviews.
Technologies: ReactJS, Node, React Native
Industry: Software and Platforms

• REDACTED Org

Project Description: REDACTED is a fully integrated digital and on-ground multi-sport platform that serves as the official partner of the Indian team for the Olympics, Commonwealth Games, and Asian Games. We implement web-based applications using React.js and develop mobile native apps for Android and iOS using React Native.
Responsibilities: Customer interaction to Lead a team of UI developers from offshore, Requirement discussion and sprint planning, Project structuring and architecture finalization, Mentor team members, and Code reviews.
Technologies: ReactJS, Node, Apollo GraphQL
Industry: Software and Platforms

• REDACTED Co

Project Description: REDACTED is an innovative social media platform designed for both web and mobile. It enables users to clip only the segments of a video that are meaningful to them and tag each clip accordingly. These tags create Amazon-style filters, making it easy for users to rediscover videos. Additionally, users can share a REDACTED with friends to initiate conversations about specific pieces of content.
Responsibilities: Technical analysis (HLD/LLD), Development (Web and hybrid mobile apps)
Technologies: AngularJS, Ionic framework, JavaScript, jQuery, HTML, CSS (Sass),
Industry: Software and Platforms

• Sales and Operations Planning

Project Description: Sales and Operations Planning in the Real-Time Value Network links the organization's multi-year strategy plan, annual operating plan, and monthly Sales and Operations Planning plans with planned sales, marketing, and financial goals while providing the ability to execute across operations and key trading relationships. This approach reduces supply and demand variability, ensures business continuity, and enables executives to plan for profitability with highly accurate financial projection
Responsibilities: Align strategy, operations, and financial goals. Optimize demand and supply planning. Ensure business continuity and risk mitigation. Provide accurate financial projections. Collaborate with sales, marketing, and finance teams. Monitor and improve key performance metrics. Enhance S&OP processes with best practices. Leverage data for better forecasting and decision-making. Execute and implement S&OP plans efficiently. Drive continuous improvement in supply chain operations.
Technologies: ExtJS, JavaScript, jQuery, HTML, CSS, FusionCharts
Industry: Software and Platforms

• REDACTED COMPANY

Project Description: REDACTED is used by physicians to help them learn, organize, and reference the knowledge they need to deliver improved medical outcomes for their patients. The product is typically purchased by medical societies, physician groups, hospitals, and residency programs as a way to educate and engage their physician communities.
Responsibilities: Technical analysis (HLD/LLD), Development (Frontend and Backend)
Technologies: AngularJS, JavaScript, jQuery, HTML, CSS, C#, SQL,
Industry: Software and Platforms
