Results-driven OutSystems Developer with 1 year of experience in designing, developing, and deploying enterprise-grade applications using the OutSystems low-code platform. Skilled in creating scalable, high-performance applications that enhance business processes and user experience. Proficient in integrating OutSystems with third-party APIs, databases, and cloud services. Strong understanding of software development best practices, including Agile methodologies, responsive UI/UX design, and performance optimization. Experienced in SQL, JavaScript, CSS, and RESTful services to extend OutSystems capabilities when needed. Passionate about solving complex business challenges through innovation and automation. Adept at collaborating with cross-functional teams to deliver high-quality solutions within tight deadlines. Always eager to stay updated with the latest trends in low-code development and digital transformation. Looking for opportunities to contribute expertise in OutSystems development while continuously growing in a dynamic, tech-driven environment.
