SOFT SKILLS

Teamwork, Communication, Critical thinking, Problem-solving

PROJECT DETAILS

• National Gas

Project Description: A new project at the company with Embedded Analytics for different kind of reporting at S4 HANA system. Got opportunity to lead it from Analytics front.

Responsibilities: Acquired knowledge from experienced competitor while I was new in this but successfully completed AOD documentation and reverse KT done successfully to National Gas counterpart who is leading Analytics from National Gas. Won trust of National Gas counter part by clearing client interview and attending daily calls with Analytics lead from National Gas. National gas us requirement of 3 new reports: One Froud checks in form of excel which need to be created by joining some tables using CDS views. Above CDS view we can create Fiori Tile using OData gateway by creating Odata service for this CDS view. Another report needs to create by joining 3 tables ADR6, BUT000 and BUT020. For 3rd report CDS view is created but HANA CV need to be created for joining THOC table. To achieve all this we have created Open ODS view over HANA View and then Query. Daily need to check all the options present for this hybrid model.

Technologies: SAP BW on HANA , Embedded Analytics , SAC Planning ,SAP S/4HANA

Industry: Manufacturing

• SAP.BW HANA Analytics Consultant

Project Description: A BW support short term project in which I got opportunity to work as lead for BW 3.5 objects and 7.5 objects

Responsibilities: Enhancement of existing data model by adding, infoobjects, infocubes along with DataSource enhancement. Complex tickets resolution and Supporting Month End Activities. Analyzed Memory consumption issue for one of the BW system. After Analyzing worked on a Archiving plan and found one object which was consuming most of the memory due to bad design. Supported EH7 ECC Upgrade from BW perspective. Attended Weekly calls with client to update them about critical incident from BW analytics. Successfully completed knowledge transfer to competitor who acquired this project with all the critical tickets closed.

Technologies: infoobjects, infocubes ,EH7 ECC Upgrade from BW perspective

Industry: Software and Platforms

• a SAP.BW HANA Analytics Consultant

Project Description: A B4HANA SAC project short term project in which I got opportunity to work in SAP Analytics cloud.

Responsibilities: Leaded a small SAC team and worked on enhancement requests with team. Worked on java script coding required for solutioning of client requests related to SAC Analytical application. Communicating with Business persons on weekly basis over a call to understand their expectations. Designed analytical application in a combination of Charts, Dropdowns, Dynamic texts, Tables, InputControls, ScriptVariables, functions, TabStrips, Buttons, Popups. Converted Analytical application to Story for performance and visual experience optimization. JIRA tool is being used to track the work using User stories , Bug fix and Sub tasks.

Technologies: JIRA tool ,Charts, Dropdowns, Dynamic texts, Tables, InputControls, ScriptVariables, functions, TabStrips, Buttons, Popups

Industry: Software and Platforms
