I'm a Software Developer, + 7 years of experience making solutions for individuals, companies & organizations. I consider myself a very responsible person with a sense of urgency. It's not just about coding it takes much more. understanding client's ideas, proposing solutions for each requirement, prototyping, setting a scope and planning for the future, budget, prioritizing, schedule, time frames, QA. I may be skipping some steps but the goal is clear. | Flutter | .Net | VueJS | Nuxt | IOS | Android | Python | JS | C# | Dart |

INDUSTRIES: Human Resources, Education
