Full Stack Developer with 10+ years of experience in building scalable, high-performance web applications using Java, Spring Boot, React, Next.js, Node.js, GraphQL, and tRPC. Adept at designing micro-frontend architectures, implementing composable platforms (Netlify/Vercel), and integrating customer data platforms for advanced personalization. Strong leadership qualities with proven experience in mentoring juniors and transforming business requirements into robust technical solutions. Skilled in building systems capable of handling millions of users and transactions, with deep knowledge of CI/CD, AWS, and modern software architecture practices.

INDUSTRIES: Ecommerce, SaaS

TECHNICAL SKILLS

• Java	11 years
• React	8 years
• Node.js	8 years
• Springboot	5 years
• Next JS	5 years

PROJECT DETAILS

• Hyper-Personalized — March-2024 - February-2025

Project Description: Building a scalable e-commerce system enabling personalized content, recommendations, and checkout flows.
Responsibilities: Architected the system using micro-frontends and BFF pattern. Integrated Segment.io and Ninetailed for personalization. Developed APIs in Spring Boot and frontend in React + Next.js. Deployed on Vercel with serverless functions and AWS Lambda. Mentored junior developers and reviewed key modules.
Technologies: Java, Spring Boot, React, Next.js, GraphQL, tRPC, Segment.io, AWS, Vercel
Industry: Ecommerce

• Composable Marketing Site — February-2023 - April-2024

Project Description: Built a dynamic website using a composable architecture on Netlify.
Responsibilities: Created UI with Next.js integrating Contentful CMS. Integrated Mulesoft APIs for dynamic content feeds. Enabled content personalization using Ninetailed. Setup Jenkins for CI/CD with preview deployments. Managed Kong Gateway configuration.
Technologies: Next.js, Node.js, Contentful, Ninetailed, Kong, Netlify, Jenkins
Industry: SaaS

EDUCATION

• Masters degree in Science from IIT KANPUR — 2011 - 2013

LANGUAGES

• English - intermediate
