EMPLOYMENT HISTORY

• Frontend developer

Description: Develop responsive and interactive user interfaces using Vue.js and Nuxt.js. Implement pixel-perfect UI/UX designs across browsers and devices. Build scalable and maintainable single-page and server-side rendered applications. Create reusable components, mixins, and Vuex store modules. Integrate RESTful APIs and handle data using Axios or Fetch. Manage application state efficiently with Vuex. Optimize performance through lazy loading, code splitting, and caching. Write unit and integration tests using Jest, Vue Test Utils, or Cypress. Debug cross-browser issues and ensure consistent application behavior. Collaborate with cross-functional teams in an Agile/Scrum environment. Participate in code reviews and sprint planning meetings. Maintain clear and concise project and code documentation.

EDUCATION

• Masters degree in Master of Computer application from AKTU University 2020 - 2022

LANGUAGES

• English - advanced
