• IAM	4 years & 5 months
• PAM	4 years & 5 months
• AWS	4 years & 5 months
• Azure	4 years & 5 months
• CyberArk PAS	4 years & 5 months

PROJECT DETAILS

• Legal and General (UK) August-2023 - May-2025

Project Description: Deployed and configured Beyond Trust Password Safe for seamless client integration and enhanced security in AWS, Azure & On-premises. Designed tailored IAM solutions to meet security and compliance requirements. Authored technical documentation and provided user training for Beyond Trust Password Safe. Delivered technical support, performed audits, and ensured compliance with security standards. Mentored team members and led significant projects, including a Beyond Trust Password Safe deployment for a financial institution. Installed resource brokers for multiple cloud locations and managed them using work groups. Handled inventory from various stakeholders and created a master inventory. Migrated over 2000 servers and user inventories from CA PAM to Beyond Trust Password Safe Cloud.
