I'm a NetSuite Developer with 7 years of experience in customizing and optimizing ERP systems using SuiteScript, SuiteFlow, and SuiteTalk. Currently, I hold the role of Associate Lead in my organization, where I engage directly with clients to gather requirements, design solutions, and provide accurate effort estimates. I actively contribute to development alongside my team, ensuring timely and high-quality deliverables. In my leadership role, I manage team capacity, assign tasks based on availability,review code to ensure quality, and monitor attendance to maintain smooth operations. I'm passionate about addressing business challenges through smart automation and seamless integrations. Outside of work, I enjoy staying updated on emerging tech trends and mentoring junior developers.
