Driven Full-Stack Developer with 7+ years of extensive experience in designing, building, and maintaining scalable and high-performance web applications. Skilled in modern front-end and back-end technologies, including React.js, Node.js, Next.js, MongoDB, JavaScript, and AWS cloud infrastructure. Proficient in microservices architecture and RESTful API development, with a proven track record of collaborating with cross-functional teams to deliver innovative and impactful solutions. Committed to writing clean, maintainable code and continuously adopting emerging technologies to deliver state-of-the-art solutions that foster business growth.

INDUSTRIES: e commerce

TECHNICAL SKILLS

• React.Js	7 years
• Node.js	7 years
• JavaScript	6 years & 6 months
• Type script	6 years & 6 months
• MySQL	6 years & 2 months
• AWS	6 years
• Next JS	6 years & 6 months
• HTML5 & CSS3	6 years & 5 months
• Github	6 years & 6 months
• Mongo DB	5 years
• PostgreSQL	5 years

SOFT SKILLS

Communication, Problem-solving, Critical thinking

PROJECT DETAILS

• Backend Platform&E-Commerce September-2023 - May-2025

Project Description: eveloped scalable backend services and APIs using Node.js, focusing on e-commerce solutions with commercetools integration. Managed cloud infrastructure and implemented asynchronous processing workflows to ensure high performance and reliability in a microservices environment
Responsibilities: Designed and implemented scalable, maintainable backend APIs and microservices using Node.js to support e-commerce workflows including cart management, checkout, and customer accounts. Integrated and customized commercetools solutions for seamless e-commerce operations and custom types implementation. Managed AWS cloud infrastructure including CloudWatch monitoring and alert configuration for system reliability. Developed robust asynchronous processing pipelines using AWS SQS for decoupled and resilient backend workflows. Contributed to centralized logging and observability best practices, improving debugging and performance tracking. Collaborated closely with DevOps and frontend teams to align deployment processes, CI/CD workflows, and environment setup
Technologies: React, node, next, javascript, typescript, next.js, aws, aws
Industry: e commerce

• D-SKY January-2023 - August-2023

Project Description: Developed a comprehensive ecommerce platform focused on selling SIM cards and mobile accessories, becoming the largest provider in the UK. The project included a management system for eSIMs, ePINs, and recharge coupons.
Responsibilities: Developed dynamic and interactive user interfaces using React.js and TypeScript. Implemented server-side functionalities using Node.js. Leveraged PostgreSQL for efficient data storage and retrieval. Managed application state with Redux, ensuring consistent and scalable performance
Technologies: React.js, TypeScript, JavaScript, Node.js, Next.js, AWS, HTML, CSS, RxJS, PostgreSQL
Industry: e commerce

EMPLOYMENT HISTORY

• Full Stack Developer

Description: Senior Full Stack Developer

EDUCATION

• Bachelors degree in Technology from RK University 2013 - 2017

LANGUAGES

• English - advanced
