• Twig	3 years & 5 months
• Oop concept	3 years
• SEO	2 years
• CSS	2 years
• JavaScript	2 years
• MIGRATION	2 years
• React	1 years
• CodeIgniter	1 years
• Laravel	1 years

SOFT SKILLS

Problem solving, Communication, Teamwork, Time management, Adaptability

PROJECT DETAILS

• GEP.com September-2022 - March-2023

Project Description: GEP is a global provider of procurement and supply chain solutions. This project focused on building scalable, reusable content structures in Drupal 9 for marketing, whitepapers, client case studies, and multilingual content. It included custom workflows for internal publishing, CRM integration for lead capture, and enhancements for content discoverability.
Responsibilities: Built reusable content templates for case studies, blogs, and whitepapers using Paragraphs and Layout Builder. Developed custom approval workflow using Rules and content moderation. Integrated Webform with external CRM via custom RESTful endpoints. Implemented multilingual content management and locale switching logic.Built reusable content templates for case studies, blogs, and whitepapers using Paragraphs and Layout Builder. Developed custom approval workflow using Rules and content moderation. Integrated Webform with external CRM via custom RESTful endpoints.
Technologies: Drupal 9, Symfony
Industry: Enterprise Procurement Platform

EMPLOYMENT HISTORY

• Software Engineer November-2023 - November-2024

Description: Drupal 10 Development & Migration Led end-to-end Drupal 7 to Drupal 10 migrations using Migrate API, ensuring seamless transition of content types, media, configuration, and user data. Developed and maintained custom modules and themes aligned with Drupal's modern architecture (OOP, Symfony components, and Twig templating).SSO Integration & Security Integrated SAML-based Single Sign-On (SSO) with custom redirect logic and attribute mapping for secure and seamless authentication. Ensured user access was role-based and compliant with client IT security policies. ???? Data Visualization & BI Integration Embedded Power BI and Tableau dashboards into Drupal portals using iFrame embedding and secure authentication mechanisms. Enabled real-time insights by integrating APIs for dynamic data fetching and rendering.

• Software Engineer January-2021 - October-2023

Neosoft Technologies

Description: Drupal Development (8/9) Developed and maintained custom Drupal modules and themes using Object-Oriented PHP, Twig templating, and Symfony components like Routing, Dependency Injection, and EventDispatcher. Integrated popular contributed modules including Webform, Metatag, Pathauto, and Paragraphs to meet complex client requirements.Search & Filtering Implementation Integrated Elasticsearch with Drupal using Search API and Facets module, enabling dynamic and fast filtering based on content type, taxonomy, and custom metadata. API Development & Integration Built and consumed RESTful APIs to integrate third-party CRMs, analytics, and marketing platforms. Exposed data to headless frontends via GraphQL APIs for decoupled implementations.

CERTIFICATION

• Certificate of Excellence in React by Scaler 2025

EDUCATION

• Masters degree in MCA from Pune university 2015 - 2018

• Bachelors degree in BCS from Pune 2012 - 2015

LANGUAGES

• English - intermediate
