PROJECT DETAILS

• Find Me Contractors — February-2020 - May-2021

Project Description: Find Me Contractors is a web application designed to connect individuals and businesses with verified local contractors for various services, including home renovation, plumbing, electrical work, painting, carpentry, and more. The goal is to simplify the process of finding, comparing, and hiring skilled contractors by offering a user-friendly interface, transparent reviews, and real-time availability.
Responsibilities: I developed this application and maintained it for 2 years
Technologies: Core PHP,MySQL,AJAX,HTML
Industry: lead Generation

• Display Sales — July-2023 - March-2024

Project Description: To track and display sales commission data within the Magento admin panel (and optionally to sellers/vendors), helping store owners manage payouts, agent performance, and multi-vendor commissions.
Responsibilities: I developed theme and custom plugin for this application
Technologies: Magento,PHP,MySQL
Industry: Ecommerce

EDUCATION

• Bachelors degree in Computer Science from PTU 2010 - 2014
