+91 9820045154 | hr@augmntx.com

I'm a Full Stack Developer specializing in designing, developing, and deploying high-performance web applications. I extensively leverage React.js, Node.js, and Next.js to build dynamic user interfaces, efficient server-side logic, and optimized full-stack solutions. My technical toolkit includes TypeScript for building robust applications, a strong command of REST and GraphQL API design, and proficiency with PostgreSQL, MongoDB, and Redis for diverse data storage needs. I'm well-versed in the full development lifecycle, using Git for version control, implementing automated testing, and deploying applications with Docker and AWS to ensure scalable architectures and drive end-to-end project success.

INDUSTRIES: IT services

TECHNICAL SKILLS

• Node.js	7 years & 5 months
• PostgreSQL	7 years & 5 months
• MySQL	7 years & 5 months
• Git	7 years & 5 months
• CSS3	7 years & 5 months
• HTML5	7 years & 5 months
• TypeScript	7 years & 4 months
• JavaScript	7 years & 5 months
• React.js	7 years & 5 months
• Next JS	7 years & 5 months

SOFT SKILLS

Communication, Problem-solving

PROJECT DETAILS

• WAREHOUSE MANAGEMENT January-2025 - June-2025

Project Description: The Warehouse Management project focuses on managing warehouse operations through a role-based system for Admin, Manager, and Delivery Boy roles with access control limits. The platform allows for managing pantry items, users, stores, and the entire delivery lifecycle from store to user. The website encompasses modules for employee management, product management, store management, delivery management, and expenses management.

Responsibilities: Developed a full-fledged product from scratch using ReactJS, Redux, JavaScript, Material-UI, HTML5, and CSS3.

Technologies: React.js, JavaScript, HTML, CSS, Redux, Toolkit, Material UI

Industry: IT services

• TRADE UNLISTED

Project Description: The TradeUnlisted platform facilitates users to trade in securities of companies that are yet to be listed in the Stock exchange markets. Developed using React.js, Node.js, and MongoDB, the platform offers a seamless trading experience and robust functionality. By leveraging technologies such as React.js, Node.js, MongoDB, HTML, CSS, and AWS, the TradeUnlisted platform offers an efficient and user-friendly solution for trading in unlisted securities. With a focus on usability, security, and performance, the platform enhances the trading experience for users and facilitates access to investment opportunities in emerging companies.
Responsibilities: Translate design mockups into responsive, functional interfaces using HTML, CSS, JavaScript, and frameworks like React.js.
Technologies: React.js, Node.js, MongoDB, HTML, CSS, AWS
Industry: IT services

EMPLOYMENT HISTORY

• Full Stack Developer

Description: Full Stack Developer

EDUCATION

• Bachelors degree in Engineering from RK University 2015 - 2018

LANGUAGES

• English - advanced
