+91 9820045154 | hr@augmntx.com

Full-Stack Developer | React & Angular | Cloud & API Integration Experienced Full-Stack Developer with expertise in building scalable and intuitive web applications using React, Angular, and Node.js. Skilled in frontend development with HTML, CSS, JavaScript, and jQuery, as well as SPA architecture with React-Redux and Angular. Proficient in backend development, designing and implementing RESTful APIs using Node.js and managing databases like MySQL, MSSQL, MongoDB, DynamoDB, and Redis. Strong cloud integration skills, working with AWS, Azure, and GCP to deploy and optimize applications. Adept at UI/UX collaboration, transforming designs from Adobe XD, Zeplin, InVision, and Storybook into functional user interfaces. Strong problem-solving abilities, performance optimization expertise, and a passion for delivering high-quality, efficient, and user-friendly applications. Always open to innovative solutions and seamless collaboration!

INDUSTRIES: Ecommerce, Banking and Finance

TECHNICAL SKILLS

• MongoDB	4 years & 1 months
• React Native	4 years & 1 months
• Java Script	4 years & 1 months
• Express.js	4 years & 1 months
• MySQL	4 years & 1 months

PROJECT DETAILS

• Shopping.ai — March-2023 - November-2023

Project Description: Shopper.ai is a customer science platform that offers a holistic customer view to e-commerce sellers, helping them target the right customers with the right products at the right time.
Responsibilities: Front-End Developer. Implemented dynamic customer science platform features. UI development Integrated with e-commerce functionalities.
Technologies: ReactJS, Redux, Recharts, React-Google-Charts, HTML, CSS, JavaScripts.
Industry: Ecommerce

• Banking Platform — February-2022 - July-2022

Project Description: A comprehensive banking platform providing a holistic customer view and supporting multiple banking operations through dynamically configured React apps.
Responsibilities: Front-End Developer Implemented dynamic banking app features UI development Integrated with various banking operations Developed micro-frontends Dynamic configuration using JSON
Technologies: ReactJS, Recharts, Bootstrap, HTML, CSS, JavaScripts.
Industry: Banking and Finance

EMPLOYMENT HISTORY

• Senior Software Engineer March-2020 - August-2025

Description: Experienced and detail-oriented React JS Developer with over 5 years of expertise in building high-performance, responsive, and scalable web applications using React.js and modern JavaScript (ES6+). Demonstrated ability to create robust UI components with Redux, Context API, and React Query, while ensuring clean architecture, reusability, and seamless integration with RESTful APIs. Hands-on experience in collaborating with cross-functional teams, including UI/UX designers, backend developers, and product stakeholders to deliver complete, user-focused solutions. Skilled in implementing secure authentication (JWT, OAuth), responsive design practices, and optimizing frontend performance through lazy loading, code splitting, and component-level caching. Well-versed with version control (Git), agile workflows, and best practices in frontend development, including unit testing, cross-browser compatibility, and use of modern toolchains like Webpack, Vite, and Babel. Proven success in delivering large-scale platforms across banking, e-commerce, analytics, education, and real-time dashboard domains.

EDUCATION

• Bachelors degree in Engineering from Government Engineering College, Modasa 2018 - 2022

LANGUAGES

• English - native
