As a skilled DevOps engineer, I have a proven track record in AWS, CI/CD, and Azure. I am consistently acknowledged for achieving excellence in performance and making valuable contributions to successful deployment and monitoring processes. I am proficient in AWS and CI/CD automation, and I am adept at streamlining workflows to ensure seamless project delivery. I have also led a team of experienced professionals. My skills include hands-on experience with a wide range of AWS services such as EC2, S3, Lambda, and EKS. I am proficient with continuous integration tools like Jenkins, GitLab CI/CD, and AWS CodePipeline. My expertise also extends to containerization with Docker and Kubernetes , infrastructure management with Terraform and AWS CDK , and monitoring tools like Datadog, Grafana, and New Relic. I am also skilled in scripting with Shell, Batch, PowerShell, and Python.

INDUSTRIES: Ecommerce with MFG, Elearning

TECHNICAL SKILLS

• DevOps	12 years
• AWS	9 years
• CICD Automation	8 years
• Terraform	5 years
• Docker	5 years
• Azure Cloud	4 years

SOFT SKILLS

Problem-solving, Time management, Teamwork, Critical thinking, Conceptual skills, Creative thinking, Communication, Decision making

PROJECT DETAILS

• Contrado November-2018 - November-2021

Project Description: Contrado is an online design tool to create high-quality, unique products. From custom fabrics to garments, homeware and leather accessories.
Responsibilities: Worked as a Senior Devops Engineer with the responsibilities of Platform Support, Routine DevOps tasks, Infra Monitoring and managed DevOps Team as a lead.
Technologies: .Net
Industry: Ecommerce with MFG

• Savvas

Project Description: Savvas is a vast E-Learning Platform and one of the products in the top 10 in the USA.
Responsibilities: Worked as a DevOps Engineer and managed Infrastructure, Automation, Release management, and Developer Support.
Technologies: JAVA
Industry: Elearning

EMPLOYMENT HISTORY

• Senior Devops Engineer

Description: Managed AWS ECS & EKS deployment on AWS accounts. Set up CI/CD automation using Jenkins and GitLabCI. Monitored the environment with Datadog and set up alert notifications. Managed over 50 microservices on AWS ECS & EKS. Contributed to architectural decisions for scalable designs. Increased system reliability by proactive troubleshooting and root cause analysis. Streamlined infrastructure management using AWS CDK and Terraform. Set up CI/CD automation using AWS CodePipeline, Azure DevOps, and Jenkins. Managed and integrated security tools like CrowdStrike, Threat Stack, and Rapid7. Optimized cloud resource usage by analyzing cost metrics.

• Sr. DevOps engineer November-2018 - November-2021

Contrado Imaging India Pvt. Ltd

Description: Designed and built applications and services on AWS and other cloud providers. Provided daily monitoring, management, troubleshooting, and issue resolution for systems on cloud resources and MongoDB cluster from Atlas. Led a team of four, overseeing work allocation and providing technical support. Increased system reliability by minimizing downtime through proactive troubleshooting and root cause analysis. Reduced deployment times by implementing CI/CD pipelines. Implemented VM clusters and HA using vSphere and vCenter. Standardized development environments using Docker. Conducted regular performance assessments of infrastructure and made optimizations.

• Sr. Cloud (DevOps) Engineer July-2011 - October-2018

Asite Solution Pvt. Ltd

Description: Improved code deployment efficiency by automating processes with CI/CD pipelines. Maintained version control systems like Git or SVN. Monitored automated build and continuous software integration processes. Automated manual tasks using PowerShell or Shell scripts to boost team productivity. Led a team of five, handling task distribution, technical assistance, and training. Contributed to creating a DevOps culture. Provided 24/7 on-call support for critical systems. Managed continuous delivery systems and methodologies on AWS cloud. Enhanced application performance by optimizing infrastructure configurations. Contributed to the design and architecture of the Asite SaaS Platform. Followed a Change Management process for all updates and upgrades.

• System Engineer December-2009 - June-2011

Maples ESM Technologies Pvt. Ltd

Description: Automated routine tasks. Handled desktop-related problems. Acted as Assistant System Administrator for Ahmedabad and Indore locations. Monitored the Symantec Server and updated antivirus definitions. Handled hardware and network-related problems.

• Sr. Customer Support Engineer July-2008 - November-2009

Wiptech Peripherals Pvt. Ltd

Description: Handled hardware and network problems. Provided onsite hardware support for DELL products, including laptops, desktops, and servers. Performed on-site installation and configuration of DELL servers and storage.

CERTIFICATION

• MCSA(Microsoft Certified System Administrator) by Microsoft 2014

EDUCATION

• Bachelors degree in BA from SU 2004 - 2007

LANGUAGES

• English - advanced
