+91 9820045154 | hr@augmntx.com

Innovative and results-oriented Mobile Application Developer with hands-on experience in building and maintaining cross-platform mobile applications using Flutter, React Native, and modern JavaScript frameworks like Next.js and React.js. Skilled in backend development with Node.js, Express.js, and MongoDB, and experienced in integrating third-party APIs and optimizing performance for high-traffic apps. Known for translating complex requirements into user-friendly, high-performance apps with clean and scalable code. Demonstrated success in leading development efforts, mentoring junior developers, and collaborating closely with design and backend teams to ensure seamless end-to-end delivery. A consistent finalist and winner in multiple national and international hackathons, showcasing strong problem-solving abilities and a drive for innovation. Actively involved in technical communities, having held leadership and mentorship roles in college innovation cells and hackathons. Dedicated to continuous learning and delivering solutions that add real value.

INDUSTRIES: Safety, Retail

TECHNICAL SKILLS

• React.js	5 years & 1 months
• Flutter	4 years & 1 months
• React Native	4 years & 1 months
• Typescript	4 years & 1 months
• Angular	4 years & 2 months

SOFT SKILLS

Communication, Critical thinking, Problem-solving, Time management

PROJECT DETAILS

• Vithu Women's Safety Platform — April-2024 - January-2025

Project Description: A safety-first mobile application offering real-time emergency support and empowerment tools for women
Responsibilities: Developed a mobile app using React Native and Expo with gesture-based emergency detection. Integrated WhatsApp API for multi-modal SOS alerts and live location tracking. Built community incident reporting and financial skill-building modules. Ensured seamless user journeys through Google Maps API and MongoDB.
Technologies: React Native, Expo, Node.js, Express.js, MongoDB, Google Maps API, WhatsApp API
Industry: Safety

• Patel R Mart E-commerce Platform — April-2023 - January-2024

Project Description: A location-based grocery e-commerce platform enabling users to browse, order, and pay seamlessly across multiple retail stores.
Responsibilities: Developed a feature-rich mobile app using Flutter and Riverpod for scalable state management. Integrated secure user authentication and Razorpay for seamless payment transactions. Implemented offline-first architecture with smart caching for enhanced performance. Synchronized real-time inventory and mapped user locations using Google Maps API.
Technologies: Flutter, Riverpod, Node.js, MongoDB, Razorpay, Google Maps API
Industry: Retail

EMPLOYMENT HISTORY

• Senior Software Engineer

Description: Senior Software Engineer

EDUCATION

• Bachelors degree in Computer Engineering from Pillai College of Engineering 2018 - 2022

LANGUAGES

• English - advanced
