Leadership, Communication, Problem-solving, Teamwork

PROJECT DETAILS

• House Hunter

Project Description: This is a MERN stack web app that helps users find their dream house. Users can also view detailed information and photos of each house, as well as contact the seller or agent directly. Features: 1. Self-created authentication system has been used. 2. From this web app, a house renter can book a house as a user. 3. From this web app, a house owner can add, delete, update and view his house details as a user.
Responsibilities: Entire website designed and built by me. I did the deployment also.
Technologies: React, Exprese.js, Mongoose, MongoDB, Git, Tailwind CSS, Daisy UI.
Industry: Ecommerce
