Ruby on Rails developer with 2+ years of experience building scalable web applications. Skilled in Rails, PostgreSQL, Vue.js, and Git, with a strong focus on clean code, problem-solving, and delivering user-friendly solutions.Ruby on Rails developer with 2+ years of experience building scalable web applications. Skilled in Rails, PostgreSQL, Vue.js, and Git, with a strong focus on clean code, problem-solving, and delivering user-friendly solutions.

INDUSTRIES: IT services

TECHNICAL SKILLS

• Ruby	2 years & 9 months
• Ruby on Rails	2 years & 6 months
• JavaScript	2 years & 2 months
• Vue JS	2 years & 2 months
• RSpec	2 years & 2 months
• HTML & CSS	2 years & 4 months

PROJECT DETAILS

• Cargonomic

Project Description: Worked on developing and maintaining a logistics and shipment management platform using Ruby on Rails, PostgreSQL, and Vue.js. Implemented modules for bid management, vendor accounts, PDF generation, chat-based communication, and audit logging. Integrated AWS S3 for file storage, optimized controller actions using design patterns and best practices, and improved system performance with efficient queries and caching strategies.
Responsibilities: I have experience in building and maintaining web applications using Ruby on Rails, PostgreSQL, Vue.js, and JavaScript, with expertise in AWS S3 integration, PDF generation, and vendor account management. I focused on writing clean, testable code with RSpec, optimizing performance, and delivering quality features in an Agile environment.
Technologies: Ruby on rails
Industry: IT services

• Twitter clone

Project Description: Developed a social media web application where users can sign up, post tweets, follow/unfollow other users, like, and comment. Implemented features like real-time updates using ActionCable, authentication with Devise, and PostgreSQL for relational data management. Deployed on Heroku/AWS with a responsive UI for smooth user experience.
Responsibilities: Developed core features like authentication, tweeting, follow system, and real-time updates; managed database design, responsive UI, and deployment with Git & AWS.
Technologies: Ruby on rails
Industry: IT services
