Leader, Problem-solving, Communication, Teamwork

PROJECT DETAILS

• React JS Portfolio — August-2023 - September-2023

Project Description: • A simple React JS portfolio made using HTML, CSS, JavaScript and React.
Responsibilities: • Ensure site responsiveness on Desktop and Mobile. • Track performance metrics and design the front-end. • Achieved site responsiveness by optimizing for both PC and mobile, achieving a performance score of 99/100 and a best practises score of 100/100 on Google's PageSpeed Insights. • Integrated external endpoints like getform.io for easy submission handling for the Contact Page
Technologies: HTML - CSS - JavaScript - React JS
Industry: Software and Platforms

• Quotey — May-2023 - August-2023

Project Description: • A Chrome extension that displays a random inspirational quote and it's author in a popup window using APIs to fetch quotes using JavaScript.
Responsibilities: • Develop the front-end and maintain API availability. • Constantly update and monitor the extension for security vulnerabilities and performance issues. • Achieved cross compatibility across all Chrome versions by implementing the latest Manifest V3 JSON format. • Implemented a second fallback API, minimizing downtime & maintaining availability.
Technologies: HTML - CSS - JavaScript - REST API
