PROJECT DETAILS

• We Are Orange

Project Description: This project involved building a corporate website for Stannieuwenhuis & Studios using MuraCMS. It focused on content management, user experience, and showcasing dynamic content with customizable themes, plugins, and widgets.
Responsibilities: Applied new theme to MuraCMS, built custom plugins and widgets, created data manager items in the admin panel, and displayed them in various viewlet formats on the user side.
Technologies: Lucee, MuraCMS, MS-SQL Server, jQuery
Industry: Digital Media

• SHN (Specialty Health Network)

Project Description: SHN is an integrated healthcare community of physicians, specialists, and ancillary healthcare providers. The Stratus application is used to manage providers, patients, patient orders, and healthcare-related documentation, while also handling discount pricing between in-house and external providers.
Responsibilities: Developed the management system to handle patients, providers, patient orders, and document management through integrated file handling.
Technologies: ColdFusion, jQuery, MS-SQL
Industry: Health care

• Benchmark Gensuite

Project Description: Benchmark Gensuite is an Environmental Health & Safety (EHS) application that provides organizations with a unified digital platform. It offers solutions for EHS, Sustainability & Climate, Environmental Social Governance (ESG) Reporting, Quality, Equipment & Operational Risk, Product Stewardship, Supply Chain Risk, and AI-powered analytics and mobile solutions
Responsibilities: Worked on new enhancements, developed the Product Stewardship tool for creating survey template builders, managing surveys, supplier inventory, and parts inventory.
Technologies: ColdFusion 11, FuseBox, MS-SQL, jQuery
Industry: Health care

• TerraDotta

Project Description: TerraDotta SEVIS is a SaaS product for handling Student and Exchange Visitor Information Systems (SEVIS). It integrates with Student Information Systems (SIS) and the U.S. Department of Homeland Security (DHS) SEVIS to manage F-1 and J-1 visa processes. The application allows International Student Services (ISS) admins to review, approve, or deny student requests and process updates via batch operations or browser-based updates.
Responsibilities: Worked on new enhancements, implemented HTML scraping from the DHS site, and automated the submission of updated information back to DHS.
Technologies: ColdFusion 11, FuseBox, MS-SQL, AngularJS
Industry: Education

EDUCATION

• Bachelors degree in Computer Science from Unnamalai Institute Of Technology 2010 - 2014

LANGUAGES

• English - native
