I'm a ColdFusion developer with nearly 5 years of experience in building and maintaining web applications. I enjoy working across both back-end and front-end, whether it's designing database queries, configuring servers, or creating user-friendly pages with HTML, CSS, and JavaScript. I've handled server migrations, SSL setups, and email integrations, and I'm comfortable working with APIs like Google Analytics, DocuSign, and RingCentral. I adapt quickly, pick up new tools with ease, and thrive in solving technical challenges while delivering what clients need.

INDUSTRIES: Mutual Fund, Marketing, Business Productivity, Background Verification Process, Consumer Goods and Services, Service Business

TECHNICAL SKILLS

• ColdFusion	4 years & 9 months
• Full Stack Development	4 years & 9 months
• Lucee	4 years & 9 months
• HTML	4 years & 9 months
• SQL	4 years & 9 months
• CSS Bootstrap	4 years & 9 months
• JS jquery	4 years & 9 months
• IIS	4 years & 9 months
• Backend	4 years & 9 months
• C	1 years

SOFT SKILLS

Critical thinking, Communication, Problem-solving, client interaction, time management, team collaboration, team management, mentoring

PROJECT DETAILS

- PM

Project Description: PM is related to Mutual funds, plans, advisors, clients, and policyholders.
Responsibilities: Proficient in handling database migrations and working with complex structured data. Implemented robust error-handling mechanisms and managed debugging emails in production environments.
