Mobile App Developer with 8+ years of experience, specializing in building high-quality cross-platform mobile applications using Flutter over the last 5+ years. Proficient in crafting intuitive user interfaces and implementing scalable backend integrations. Passionate about clean, maintainable code, performance optimization, and delivering seamless user experiences across Android and iOS. Continuously exploring the latest tools and trends to enhance mobile development workflows.

INDUSTRIES: Social Media, Health care

TECHNICAL SKILLS

• Android	6 years & 4 months
• SQLite	6 years & 6 months
• Firebase	6 years & 4 months
• Material Ui	5 years & 4 months
• Flutter	4 years & 5 months
• Dart	4 years & 2 months

PROJECT DETAILS

• Mercury Encrypted — January-2025 - March-2025

Project Description: Developed a secure and modern social platform designed to enable private communication and community engagement.
Responsibilities: Implemented end-to-end encrypted chat for secure 1-on-1 and group messaging using secure messaging protocols. Built a dynamic post system supporting text, images, and reactions to enable social sharing and interaction. Created a customizable profile management module allowing users to update bios, avatars, and privacy settings.
Technologies: Flutter, Kotlin
Industry: Social Media

• BlueBird AI Commissions — January-2024 - July-2024

Project Description: Integrated advanced data tables and dynamic graphs to visualize sales performance, commission trends, and goal tracking. Implemented filterable, paginated, and responsive tables for large datasets across various sales metrics. Used charting libraries to deliver interactive, real-time performance insights for individual reps and teams.
Responsibilities: Developed both mobile and web versions of a data-driven sales commission analysis platform using Flutter.
Technologies: Flutter
Industry: Health care

EMPLOYMENT HISTORY

• Mobile App Developer

Description: Mobile App developer

EDUCATION

• Bachelors degree in BSC from GTU — 2013 - 2016
