React Developer with over 8 years of experience building scalable, high-performance web applications. Skilled in creating reusable React components, optimizing performance across devices, and integrating applications with RESTful APIs. Adept at state management using Redux and Context API, and experienced in modern authorization mechanisms like JWT. Passionate about writing clean, maintainable code and leveraging modern front-end tools for efficient development.

INDUSTRIES: SaaS, HealthTech

TECHNICAL SKILLS

• React	8 years & 2 months
• MySQL	8 years & 6 months
• Tailwind css	6 years & 4 months
• Next JS	6 years & 1 months
• HTML & CSS	6 years & 3 months
• Full Stack Development	5 years & 6 months
• Node.js	3 years & 5 months
• Boostrap	2 years & 1 months

PROJECT DETAILS

• Bazar June-2024 - December-2024

Project Description: B2B Procurement Facilitation Platform - Developed a B2B SaaS platform to streamline communication and workflow between suppliers and buyers.
Responsibilities: Built a two-sided marketplace with supplier registration, product catalog management, and location-based product availability. Implemented an admin review process for supplier onboarding and product approval. Designed and developed reusable React components for efficient codebase management. Integrated RESTful APIs to ensure seamless data flow between frontend and backend. Implemented state management using Redux for scalable application performance Optimized front-end performance for various devices and browsers.
Technologies: React, Tailwind , Nextjs
Industry: SaaS

• TBD Health July-2022 - December-2022

Project Description: At-Home Sexual Wellness & Telehealth Platform- Developed the user-facing interface for a DTC healthcare platform providing at-home sexual health testing and telemedicine services.
Responsibilities: Focused on delivering a responsive, secure, and user-friendly experience tailored for privacy and ease of use. Built and optimized React components for test kit selection, encrypted result viewing, and telehealth scheduling. Integrated secure APIs to display lab-certified test results and AI-based health recommendations. Implemented video consultation flow and UI integrations with third-party telehealth APIs. Collaborated closely with backend and design teams to maintain HIPAA compliance and accessibility standards
Technologies: react, Nextjs
Industry: HealthTech

EMPLOYMENT HISTORY

• React developer

Description: React dev

EDUCATION

• Diploma degree in Computer from Polytechnical gandhinagar 2010 - 2013

LANGUAGES

• English - advanced
