• Web API	8 years & 9 months
• .NET Framework 4.6.5	8 years & 9 months
• ASP.NET MVC	8 years & 9 months
• .NET Core	8 years & 8 months
• .NET Framework 4.5	7 years & 9 months
• SQL Server	7 years & 6 months

SOFT SKILLS

Devops, Entity Framework, JSON

PROJECT DETAILS

- Neha Lulla Jewelry

Project Description: The Neha Lulla project is a luxury jewelry e-commerce web platform designed to showcase and sell high-end ornaments online. It allows customers to browse jewelry collections by category, metal type, gemstone, and occasion with real-time stock and dynamic pricing. The platform included features like secure checkout, payment gateway integration, product variant handling, custom discount logic, and a responsive UI built with AngularJS and Bootstrap.
Responsibilities: Developed end-to-end modules in ASP.NET MVC using Repository Pattern and Entity Framework for structured, maintainable code. Built Web APIs for product listing, cart operations, and order management, consumed by AngularJS front-end. Designed dynamic product pages with variant filtering (metal type, diamond, weight, occasion). Integrated real-time pricing, discount management, and stock updates using AJAX and Web API calls. Handled payment gateway and email/SMS notification API integrations. Participated in code reviews, sprint planning, and testing to ensure timely, quality releases.
Technologies: ASP.NET MVC, AngularJS, Web API, SQL Server, HTML5, CSS3, Bootstrap, Entity Framework, Repository Pattern
Industry: eCommerce and Retail

• Benzer Foods

Project Description: Benzer Foods is an online grocery e-commerce platform that enables customers to purchase, and manage daily grocery items with ease. The system supports real-time stock management, dynamic pricing, and customer wallet integration for seamless payment experience.
Responsibilities: Developed end-to-end modules using ASP.NET MVC, AngularJS, and Web API for front-end and backend communication. Implemented Repository Pattern and Entity Framework for structured and maintainable data access. Designed and built the customer wallet system, including wallet balance tracking, recharge, and transaction history. Developed real-time cart updates, stock validation, and discount application logic using AJAX and Web API.
Technologies: ASP.NET MVC, AngularJS, Web API, SQL Server, HTML5, CSS3, Bootstrap, Entity Framework, Repository Pattern
Industry: Online Grocery Platform

• Vanila Beans

Project Description: Vanila Beans is an online bakery and gourmet product ordering platform where customers can browse, customize, and order freshly made items online. The system supports made-to-order products, dynamic delivery date calculation, and integration with We Fast Shipping API for real-time delivery charge and timeline computation.
Responsibilities: Developed full stack features using ASP.NET MVC, AngularJS, and Web API. Added a Made-to-Order option so customers can choose product details like flavor, weight, and message, with delivery time checks. Integrated WeFast Shipping API to show real time delivery cost and time based on location and product weight. Built product and order management modules where admins can manage stock, pricing, and delivery settings. Created a responsive design using HTML5, CSS3, and Bootstrap to make the website work smoothly on all devices
Technologies: ASP.NET MVC, AngularJS, Web API, SQL Server, HTML5, CSS3, Bootstrap, Entity Framework, Repository Pattern
Industry: eCommerce and Bakery and Gourmet Foods Platform

EMPLOYMENT HISTORY

• Senior Software Developer

Description: As a key member of the product development team, I contributed to the successful delivery of real-time web applications across industries such as jewelry, fashion, grocery, cookware, fragrances, and more. Responsibilities included full-stack development, third party integration, API Integration, and performance optimization

• Software Developer January-2016 - May-2018

Softlabs Technologies Development & PVT LTD
Description: Worked on VedaGeral, a web-based insurance management application. Contributed to the development of Delta Mart, an e-commerce site, enhancing customer experience through optimized UI components. Technologies used: ASP.NET MVC, jQuery, JavaScript, HTML, CSS, Bootstrap.

EDUCATION

• Bachelors degree in MCA- IT from Mumbai University 2014 - 2016

LANGUAGES

• English - advanced
